DECLARATION OF JANINE M. GOODWIN

I, Janine M. Goodwin, declare as follows:

1. I have been employed by Fish & Richardson P.C. since September 4, 2000, as a Docketer/Patent Services Specialist in the Patent Services Department.

2. When mail is received by Fish & Richardson P.C. from the U.S. Patent and Trademark Office ("PTO"), the mail is entered and docketed into the Fish & Richardson P.C. computerized docketing system and entered into a manual log of all PTO mail received to date. It is then sent to the attorney in charge of the case for entry into the file.

3. According to our docket system the case identified as U.S.S.N. 09/419,262 filed October 12, 1999 corresponds to client/matter number 11141/003001.

4. I have checked our computerized docketing system and found that the November 29, 2001 correspondence concerning the above-captioned case was not entered or docketed.

5. I have checked our manual mail log (Exhibit A) for the period of time from November 29, 2001 through December 29, 2001. If we had received a PTO action for application number 09/419,262, I would expect to see an entry in the mail log which would include the date received; the Fish & Richardson reference number; and the base date of November 29, 2001. There is no record of ever receiving the Office Action mailed November 29, 2001.

6. I also checked copies of our docket printouts (Exhibit B) showing docketing deadlines occurring on February 28, 2002. Each entry in Exhibit B identifies the docketed date;

the Fish & Richardson reference number; the U.S. Serial Number; a description of the action; and a description of the type of deadline. For application U.S.S.N. 09/419,262, if we had received an Office Action dated November 29, 2001 I would have expected to find a docketed due date of February 28, 2002 for response to Office Action. I did not find such docket entries in the docket printout for February 28, 2002, a copy of which is attached as Exhibit B.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.

Respectfully submitted,
